Shipping Address 2:

Your Telephone:

Your Email:

Your EAZE OFF™ is custom built to your specifications, please fill out the form below.

1. Height of your top rail: ____ ft. ____ in.
2. Size of your top rail: height ____ in. X width ____ in.
3. Your rail hanger length: ____ ft. ____ in.
4. Your rail hanger orientation: left side or right side
Important: As you push the carcass toward the cutting block, if track hangers are on the right side, choose right side. If hangers are on the left side, choose left side.
5. My EAZE OFF™ replaces a standard carcass drop: Yes or No
6. Powder coated steel frame EZ4PC has been discontinued.
All models now equipped with Stainless Steel frame, spool and wheel stop.
7. Choose Dacromet coated carbon steel chain (Recommended for beef) or Stainless steel chain
8. Choose standard wired remote or add wireless remote

Standard drop of 7.5 feet accommodates a top rail height of up to 14 feet, we can customize if longer drop is needed. Mounts to standard ½" x 2 ½" rail with three bolts.

An ANSI #40 stainless steel roller chain is used which requires trolley wheel opening of .658 inches
